# Western Ag Improvement

WAI	2013	2014
BORON	385	1980
Iron	10	
SUPER K	360	
FERTIL HUMUS	30	
44 MAG	40	
MANGANESE	25	
SUPER PHOS	4050	6240
SOIL MAX		631
CALCIUM		720
GOLDEN GRO		2685
IRON		330
SUPER K		2300
FERTIL HUMUS		540
44 MAG		1955
MANGANESE		510
SUPER NITERO		4845
SULFUR		1630
VITOL		1320
BREAKOUT		790
Z-MAX		1650
MAX PAK		180
MOLYBDENUM		50

- 2013: 7 Products
- 2014: 17 Products
- 2015: Custom Mixes

# T&M Farms/ Felton's

T&M FARMS	2013	2014
SOIL MAX		20
CALCIUM		415
SUPER K	1100	825
SUPER PHOS		20
VITOL		93
BREAKOUT	265	1375
Z-PHOS		45
MAX PAK		835
ZAP		40
LUCKY 7		40

- 2013: 2 Products
- 2014: 10 Products

# T&M Farms/ Felton's 2014 Estimates

- #1 in cotton; 2 ½ to 3 bale
- Corn- 240 bushel
- Soy Beans- 70 to 75 bushel
- 2015 full crop programs

# Dan Hilgar

- Nebraska Pop Corn:

- Soil Max
- Super Phos
- Z-Phos
- Breakout

# Trilogy

# Greens Maintenance

## Trilogy At Power Ranch

Product	Analysis	Rate/1k sf	Rate/Acre	\$/Gal	\$/Acre
Multi-Purpose™	5-0-0	1 oz	1 qt	\$72.30	\$18.07
A soil conditioner that stimulates microbial activity. Stimulates root growth, aerates compacted soils and improves water penetration and retention in the soil.					
TurfPlex SR®	10-2-6	3-12 oz	1-4 gal	\$35.70	
Complex nutrients for warm season grasses with a controlled release. OR					
TurfPlex VII®	7-7-7	3-12 oz	1-4 gal	\$53.13	\$53.13
Full nutrient package 7-7-7 with 7 micro-nutrients. OR					
TurfPlex IV®	20-2-3 +	3-12 oz	1-4 gal	\$38.34	
Premium foliar formulation containing NPK, S, Fe, Mn,Zn. Promotes a rapid turf response and excellent color. T.P.IV provides an excellent foundation for the maintenance of healthy, vigorous turf through our Micro Carbon Technology.					
Breakout®	4-14-2	2 oz	2 qt	\$51.00	\$25.50
A unique blend of foliar nutrients, polysaccharides and carbohydrates that promote horizontal turf growth, stronger root system and healthier turf.					

# Greens Maintenance - continued

Product	Analysis	Rate/1k sf	Rate/Acre	\$/Gal	\$/Acre
Fertil-Humus®	24-0-0+	1 oz	1 qt	\$112.38	
(Fe, Zn, Mn) A unique formulation of nutrition and enzymes to stimulate an active humus rich soil, the decomposition of thatch and other organic residues. Rates may be changed due to deficiencies.					
ZAP®	8-0-0-1S	3 oz	1 gal	\$109.15	
For the treatment of unhealthy soil biology, microbial, fungal and bacterial.					
ENCAPSALT®	5-0-0	2 oz	2 qt	\$82.38	
Protects plants in alkaline or sodium rich soils. Improves damage due to salts.					
TURF IRON™	12-0-0+ 4S+8Fe	3 oz	1 gal	\$39.50	\$39.50
Stimulates effective and quick iron uptake into the plant and is a key micronutrient involved in photosynthesis and enables other biochemical processes such as respiration, symbiotic nitrogen fixation and transfer of energy within the plant.					
MAXPAK®	n/a	1 oz	1 qt	\$48.30	
8 Micro Nutrients, complexed and highly stable. Leaf friendly and salt buffered for max uptake.					

# Trilogy Soil Program

- **ZAP**: Curative and preventative treatment for unhealthy soils. Keeps soils in an aerobic state. Achieves healthy soil balance. **Application**: 4X per year, Early November, Mid February, Mid May, Early August
- **ENCAPSALT**: Buffers plant against salts and complexes salts present in the soil. **Application**: 6X per year, early each month for 6 months; soil analysis to follow.
- **FERTIL HUMUS**: Enhances aerobic decomposition of organic matter & thatch, builds humus rich soil. **Application**: 3X per year, Late October, Early February, Mid May
- **PROMAX**: Preventative and curative for soil borne diseases and parasitic nematodes. **Application**: 3X per year, Late October, Early February, Late May

# *Sharing Our Experiences*

- *Marg Gregory- Lucky 7, Vitol/ B.O*
- *Rudy Allen- Super Phos for algae*
